Accounts Receivable & Analytics Professional

Results-driven finance and operations professional with extensive experience in **Accounts Receivable, Credit & Collections, and Financial Reporting** within dynamic, fast-growing environments. Skilled in combining **analytics, automation, and process optimization** to improve cash flow, reporting accuracy, and cross-departmental collaboration. Recognized for fostering strong business partnerships, training teams across systems, and adapting seamlessly to organizational change.

Brings 19+ years of success at TriNet driving accuracy and efficiency through data-driven analysis, system integrations, and end-to-end AR management. Dedicated to continuous improvement and leveraging technology—including **Power BI, Tableau, Oracle Financials, and Salesforce**—to enhance business intelligence and performance visibility.

Professional Experience | Key Achievements

TriNet Group, Inc
Senior AR Specialist Credit Collections Analyst May 2006 | Oct 2025

Led comprehensive **accounts receivable operations for a nationwide HR services organization** during a period of significant expansion through mergers and acquisitions. Supported financial reporting, client billing, and collections across multiple business units while contributing to ERP and Salesforce integrations.

- Managed high-volume receivables for a client base that grew from **approximately 8,000 to over 23,000** companies, supporting TriNet’s evolution from a mid-sized HR provider into a national enterprise.
- Oversaw **monthly cash flow exceeding \$3 billion annually** in client payroll and service remittances, ensuring accuracy, timely posting, and full compliance with internal audit and SOX controls.
- Performed detailed financial analysis on accounts, trends, and credit exposure to guide collection strategies, improve DSO performance, and mitigate risk.
- Designed advanced **Excel and Access reports** to track AR aging, cash flow, and dispute status; leveraged **Salesforce dashboards** for performance tracking and case management, improving visibility and response times.
- Partnered with **Finance, Treasury, and Customer Success teams** to resolve discrepancies, enhance cash application accuracy, and strengthen client satisfaction.
- Delivered monthly and quarterly **KPI and audit reports** for senior leadership, providing insights that improved forecasting and reconciliation accuracy.
- Supported multiple **system migrations**, including the transition to **Oracle Financials Cloud and Salesforce CRM**, testing data integrity and training staff on new workflows.
- Mentored team members and created updated **SOPs and training resources**, ensuring consistency and readiness during company restructuring.
- Recognized for **reliability, analytical precision, and cross-functional collaboration** during periods of high volume, organizational change, and acquisition-driven growth.

Vengroff Williams & Assoc.
Collections G.E Nationals Team May 2005 | May 2006

Managed **past-due receivables for GE Medical Equipment Services** as part of the national collections team. Oversaw complex portfolios of hospital and medical accounts, ensuring accurate reconciliation, timely communication, and issue resolution across multiple stakeholders.

- Maintained and tracked payments for large healthcare clients using Oracle Financials and advanced Excel reporting.

- Conducted detailed account reviews, aging analysis, and reconciliation for overdue balances on high-value service contracts.
- Partnered with hospital Accounts Payable teams to identify payment delays, correct discrepancies, and expedite remittance.
- Collaborated with Sales and Technical Service teams to resolve contract or service disputes, ensuring positive client relationships and improved collection timelines.
- Ensured accurate documentation and escalation of accounts, achieving consistent monthly recovery and improved DSO performance.

Outdoor Specialties

Owner Operator - Bookkeeper

May 1996 | Jan 2005

Managed full-service lawn care, landscaping, and snow removal business, overseeing all accounting, operations, and client management functions. Transitioned the company from a manual to a fully digital bookkeeping and scheduling system, significantly improving efficiency and accuracy.

- Directed daily financial operations including **Accounts Payable/Receivable, budgeting, payroll, and quarterly tax filings (941, WH-1, sales tax)**.
- Implemented **QuickBooks** to automate billing, payroll, and financial tracking, replacing manual systems and reducing administrative workload.
- Oversaw **billing and collections** for residential and commercial customers, ensuring timely invoicing, deposits, and resolution of overdue accounts.
- Managed **job cost analysis**, material purchasing, and vendor payments to maintain profitability and cash flow control.
- Scheduled, routed, and supervised field teams, ensuring efficient time management and quality service delivery.
- Collaborated with external accountants to maintain compliance and prepare year-end financial statements.
- Created customer contracts, reports, and seasonal communications to strengthen client relationships and retention.
- Trained staff on equipment use, safety protocols, and new computer systems, fostering skill development and operational excellence.
